Workshop for Developing Countries

Future Trends in Electrical Energy Efficiency (E³): Standards and Certification

Tuesday 18 November 2008
Hilton Hotel, Morumbi B – São Paulo, Brazil

Chaired by Françoise Rauser, IEC Affiliate Country Programme Secretary and Evah Oduor, IEC Affiliate Coordinator for Africa

13:30-14:00  Host country: Energy efficiency in Brazil  
Dyamil Barbosa, Assistant of Technology Direction, Eletrobrás, Brazil

14:00-14:30  SMB/SG 1: Energy efficiency and renewable resources  
Dr. Bernhard Thies, Convenor of SMB Strategy Group 1, Secretary of IEC German National Committee, VDE/DKE, Germany

14:30-15:00  Efficient electrical energy transmission and distribution  
Richard Schomberg, Chairman of TC 8: Systems aspects of electrical energy supply, EDF Group, France

15:00-15:30  IECEEE PV Programme – The best tool to facilitate trade of photovoltaic in the global market  
Dr. Gerhard Dreger, IEC German National Committee, Managing Director of DKE, German Commission for Electrical, Electronic and Information Technologies of DIN and VDE, Germany

15:30-16:00  IEC action on E³ and renewable energies  
Amaury Santos, IEC Regional Manager for Latin America

16:00-16:30  E³ in Sudan: Jebel Aulia hydro matrix turbine project  
Amin Sabri Ahmed, Electricity Regulatory Authority, General Secretary, Secretary of Sudan National Electrotechnical Committee

16:30-17:00  Energy efficiency labelling for domestic appliances, the Ghanaian experience  
Moses Dowuona, Ghana Institution of Engineers, Vice President, Chairman of Ghana National Electrotechnical Committee

17:00-18:00  Discussion
