Wind turbines —
Part 4:
Design and specification of gearboxes

INTERNATIONAL STANDARDS ISO 81400-4:2005
TECHNICAL CORRIGENDUM 1

Aérogénérateurs —
Partie 4: Conception et spécifications des boîtes de vitesses

RECTIFICATIF TECHNIQUE 1

Page iv, Foreword
Replace the final two paragraphs of the Foreword with the following.

‘ISO 81400-4:2005 was prepared by AWEA and AGMA (as ANSI/AGMA/AWEA 6006-A03) and was adopted, under a special “fast-track procedure”, jointly by Technical Committee ISO/TC 60, Gears, and Technical Committee IEC/TC 88, Wind turbines, in parallel with its approval by the national bodies of ISO and IEC.

ISO 81400-4 is part of the IEC 61400 series. It is to be published as, and replaced by, IEC 61400-4 at the next revision.’
