

2002-11-22

**TO ALL NATIONAL COMMITTEES  
TO ALL TC/SC OFFICERS**

Dear Sir/Madam,

**Paper and Electronic Copies of Final Publications for NCs and Experts**

Further to the email of 2002-11-06 sent to all NC Secretaries, the CO will from 2002-12-02 be implementing a change to the paper copies of final publications distributed to NCs for library use. The change will ensure maximum use of the electronic collections available to NCs and reduce costs of production and shipping.

The paper versions will be printed using the IEC Library of "Watermarked" Publications and will feature "Copyright © IEC. Not for commercial use or reproduction" clearly visible on all pages.

In addition, and given that the watermarked electronic copies can be distributed electronically by NCs to those experts who participated in a particular publication's development (at the NC's discretion), the CO will be reducing the number of paper copies sent out to all NCs to one copy per new publication also from 2002-12-02.

If you wish to use the electronic watermarked collection of publications as described above, a simple bilateral agreement is required. A copy of this agreement is available for review from the "Useful Links" sections of the TISS page ([www.iec.ch/tiss](http://www.iec.ch/tiss)) or the SSN page ([www.iec.ch/ssn](http://www.iec.ch/ssn)). Full information on the watermarked collection and other facilities available to NCs for non-commercial and commercial use was detailed in AC/48 of 2002-03-22.

If your reproduction department is still using the paper copies of final publications for commercial use, please contact the CO so that alternative arrangements can be implemented.

If you have any questions or require any additional information regarding the Watermarked Collection and commercial use of electronic collections, please do not hesitate to contact Jonathan Buck, Head of Information, Marketing and Sales (Email: [jjb@iec.ch](mailto:jjb@iec.ch) / Tel: +41 22 919 02 65).

Yours faithfully,

**A. AMIT  
General Secretary**
